

Clamp Ferrule Specifications & Dimensions

Dimensional Data for Sanitary Tube and Pipe Sizes

Tube	
Tube OD	ØA
Inches	
1/2	.992
3/4	.992
1	1.984
1 1/2	1.984
2	2.156
2 1/2	3.047
3	3.579
4	4.682
5	5.687
6	6.570
8	8.602
10	10.570
12	12.570

Pipe		
Pipe Size	Pipe OD	ØA
Inches	Inches	
1	1.315	1.984
1 1/4	1.660	2.516
1 1/2	1.900	2.516
2	2.375	3.047
2 1/2	2.875	3.579
3	3.500	4.125
4	4.500	5.125
6	6.625	7.195
8	8.625	9.200

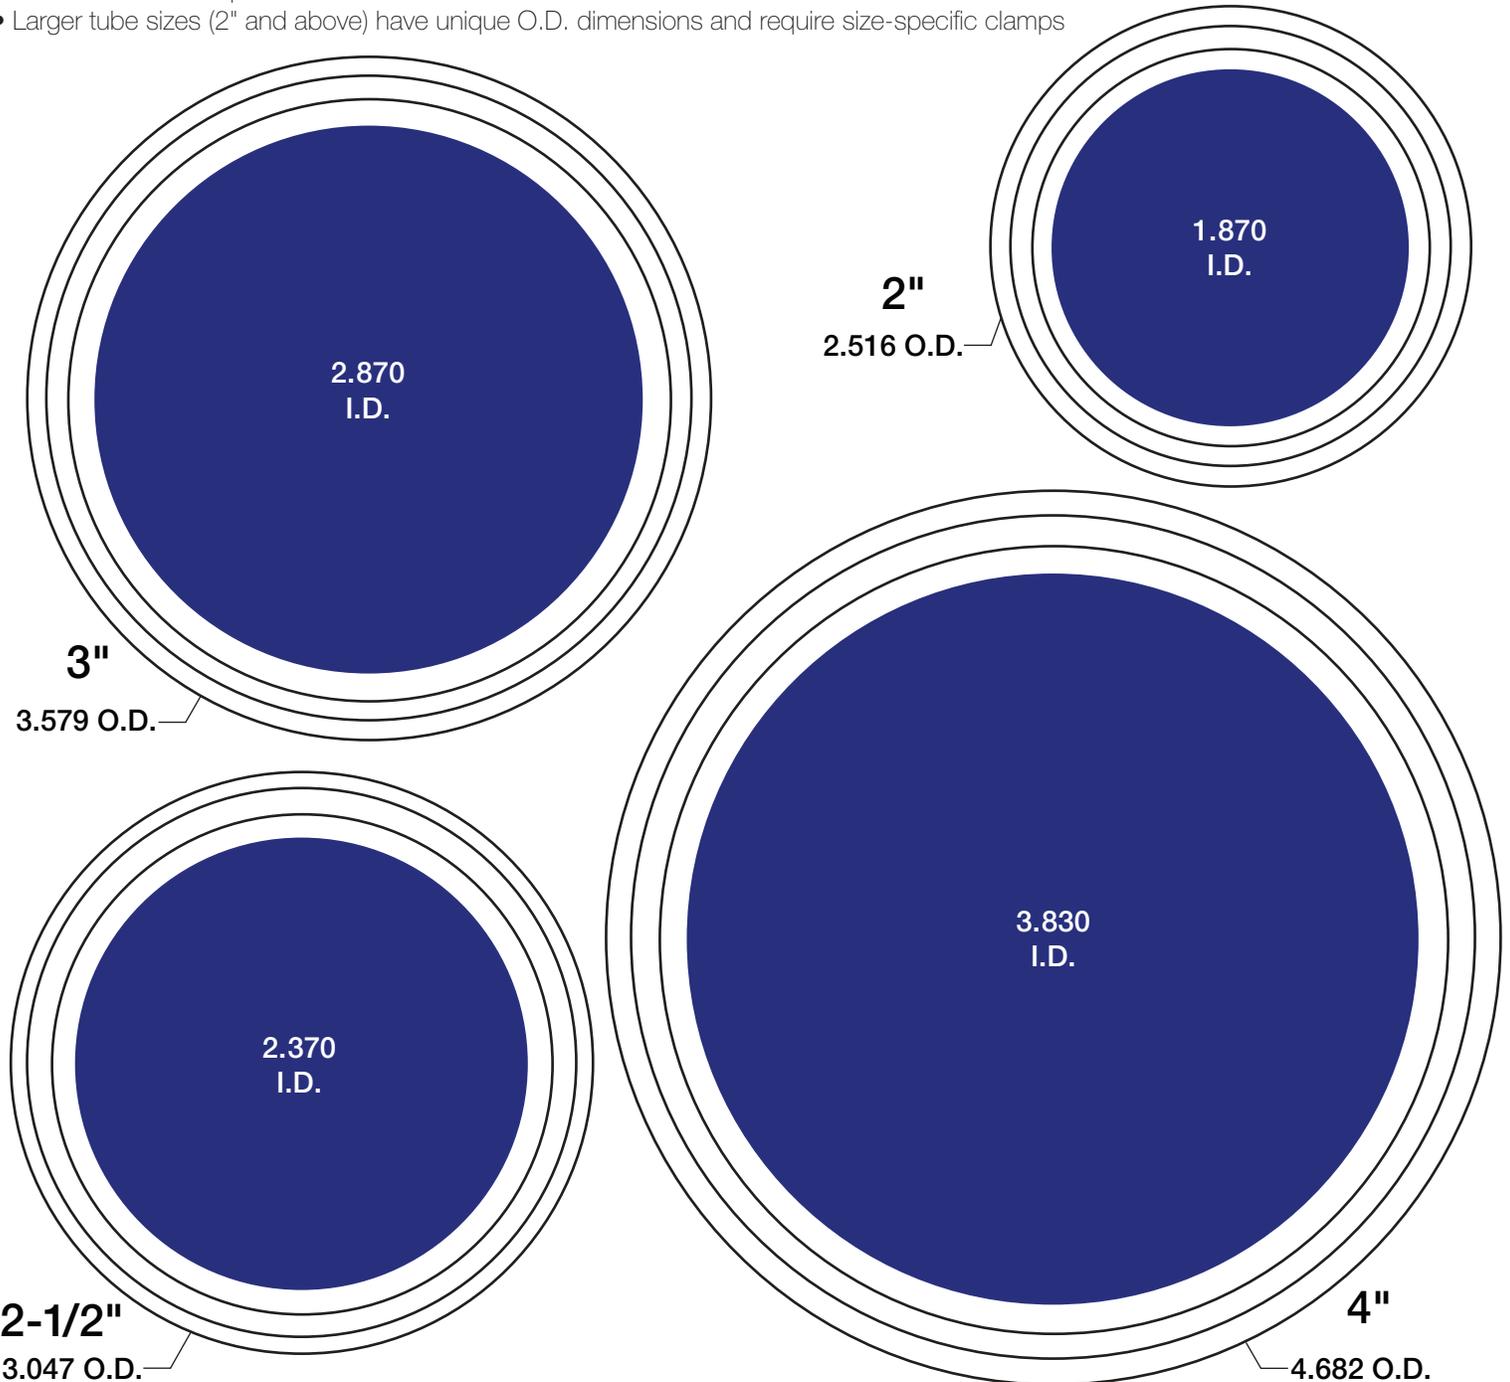

Clamp Sizing Guide

A Practical Reference for Selecting Sanitary Tube and Pipe Clamp Sizes

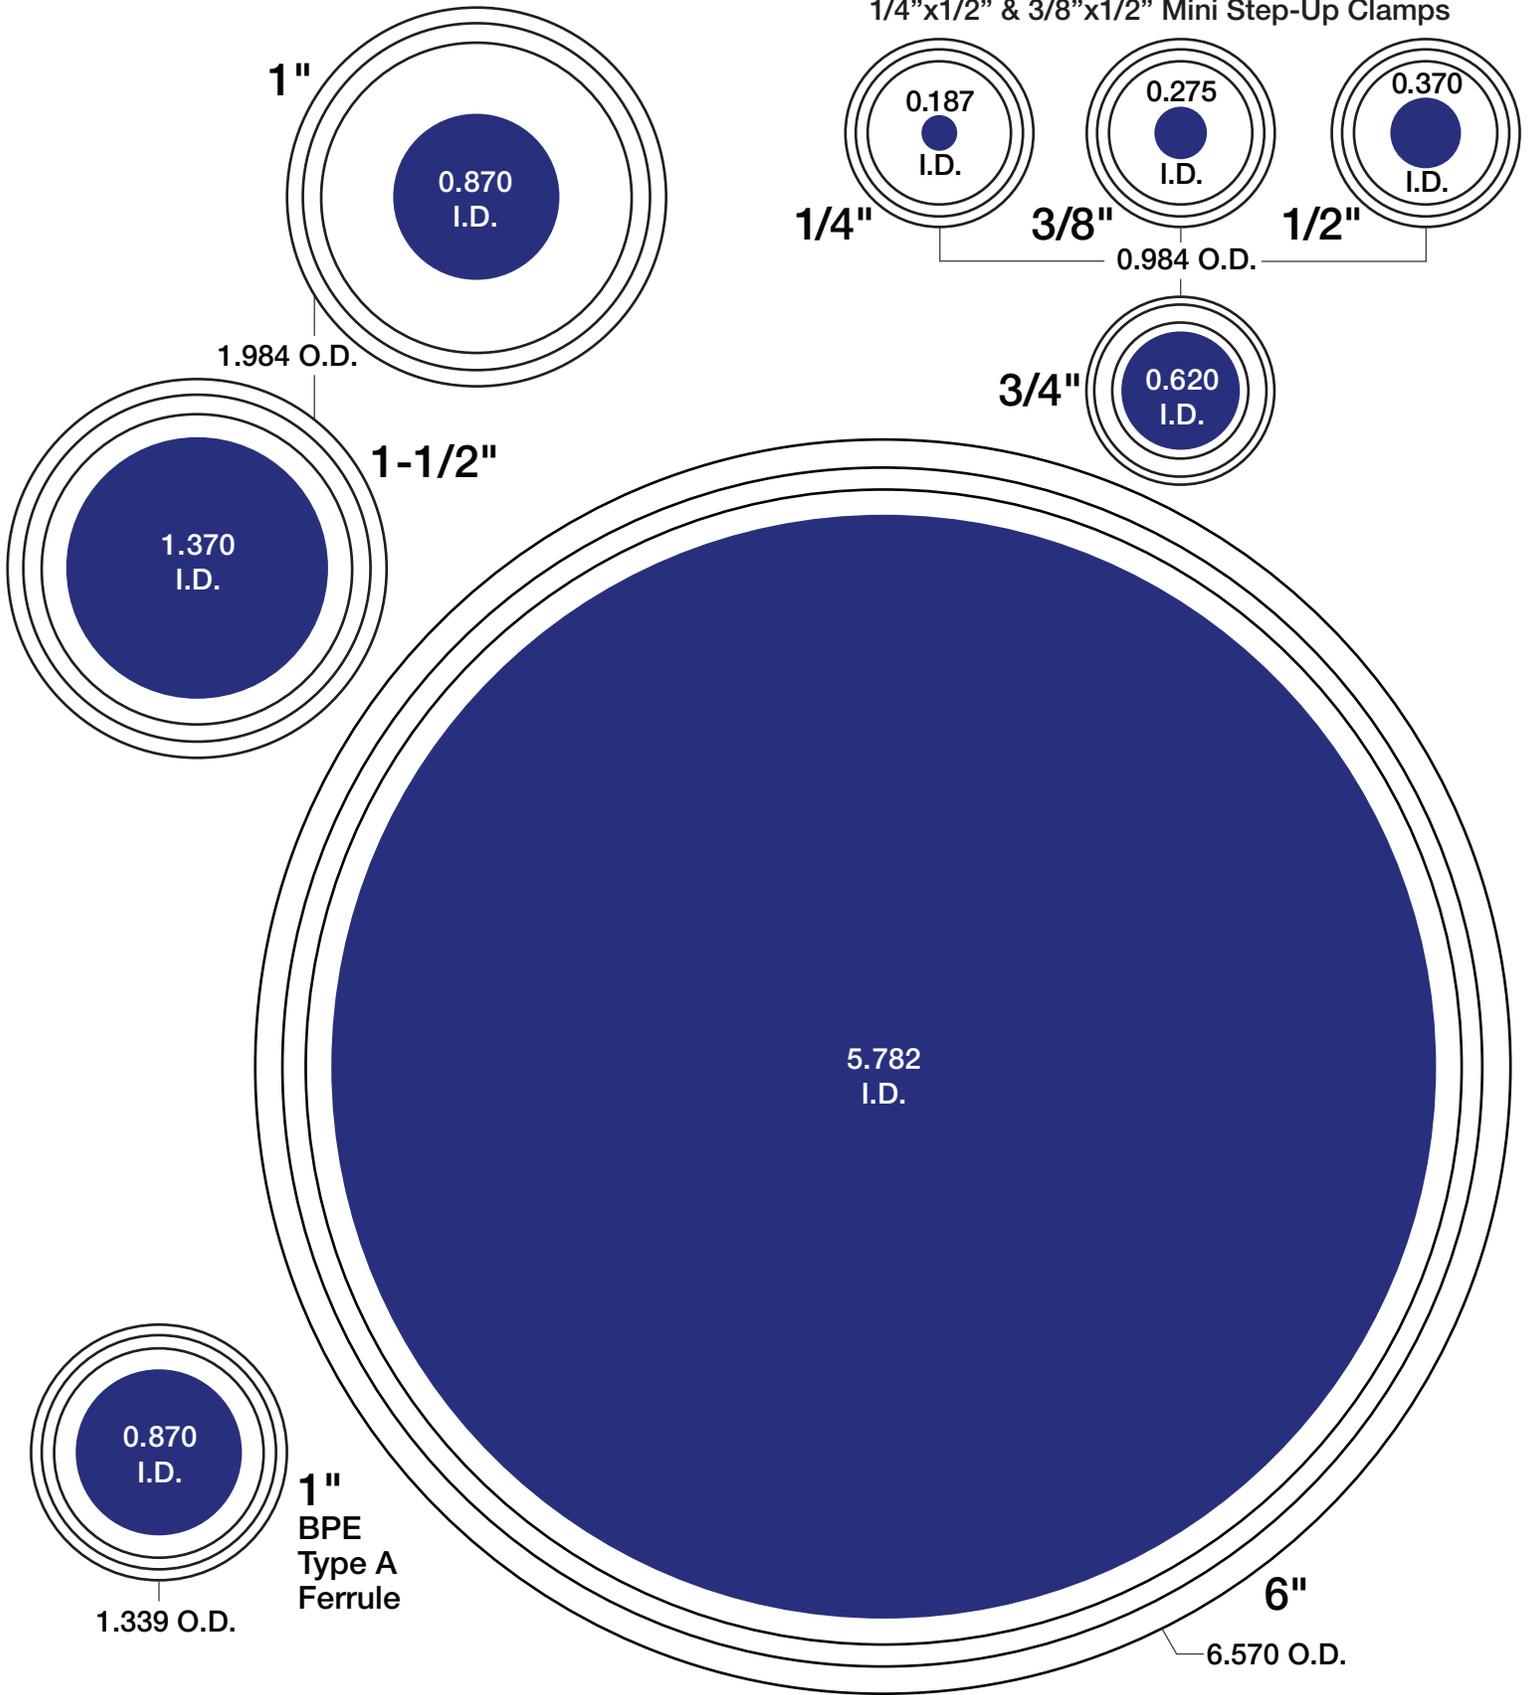

This printable guide uses actual-size drawings to help identify correct clamp sizes for sanitary tube and pipe connections, reducing ordering errors and mismatched fittings.

Important Sizing Notes

- Multiple tube I.D. sizes share the same outside diameter (O.D.)
- A 0.984" O.D. clamp is used for 1/4", 3/8", 1/2", and 3/4" I.D. tube sizes
- A 1.984" O.D. clamp is used for both 1" and 1-1/2" I.D. tube sizes
- Larger tube sizes (2" and above) have unique O.D. dimensions and require size-specific clamps

1/4"x1/2" & 3/8"x1/2" Mini Step-Up Clamps
